(3.) Prior to the commencement of his hatching operations in any hatching season, the operator shall furnish the District Officer with a statement in writing showing the flock-

owners, and their respective serial permit numbers, from whom he intends to purchase hatching-eggs, and the grade of cockerels heading these flocks; this statement may be altered from time to time as additional names are added or deleted.

(4.) Any operator purchasing hatching-eggs from flocks outside the Province shall, before accepting any hatching-eggs from those flocks, supply evidence satisfactory to the District Officer that the flocks from which the eggs originated are approved flocks.

(5.) No operator shall accept hatching-eggs unless they are packed in clean packing material and clean egg-cases, and unless the approved flock or approved hatchery from which the eggs originated is clearly identified inside or on the outside of the case.

(6.) Every operator shall, for each lot of eggs purchased for hatching or accepted for custom hatching, secure a statement in writing from the flock-owner showing the date of shipment, the name and address of the flock-owner, the quantity and grade of eggs, and the breed. These statements shall be signed by the flock-owner, and shall be retained by the hatchery operator for a period of at least sixty days, and shall be available during that time for examination by an Inspector.

(7.) An operator selling hatching-eggs, or having eggs custom-hatched, shall sell or furnish only eggs from an approved flock, and shall supply to the purchaser or person who is to do the custom hatching a statement signed by the operator identifying the origin of each lot of eggs by the name of the original flock-owner, or by the invoice number, and showing the grade of hatching-eggs from each flock; eggs sold or furnished in this manner shall be recorded by each operator in the same manner as for eggs purchased direct from flock-owners and set in his own machines.

(8.) The operator shall keep posted in his hatchery the following records, namely:—

- (a.) Egg purchases and sales:
- (b.) Results of commercial hatching and custom hatching, showing accurately the number of eggs set and chicks hatched:
- (c.) Chick purchases and sales:
- (d.) Disposal of surplus chicks:
- (e.) Advertising; and
- (f.) Additional records as required from time to time by the Minister.

These records shall be kept on forms approved by the Minister and shall at all times be made available to an Inspector for inspection.

(9.) The operator shall submit to the Minister such reports in such form as the Minister may from time to time require.

(10.) Proofs in triplicate of catalogues, circulars, advertisements, and all other publicity material intended to be used by an operator or an agent or broker shall be submitted to the District Officer for approval, together with list of publications in which the advertisements will appear, and shall not be released to any advertising medium before approval has been given to the hatcheryman; advertising-matter approved once may be used for the remainder of the current season; no changes of any kind shall be made in such advertising except as regards prices; advertising shall be true and correct in all details and shall not contain any statement derogatory to any other hatcheryman or class of hatcherymen; all advertising-matter in catalogues and circulars that carries a reference to anything other than chicks shall contain the following statement in reasonably prominent type: "No statements in this advertisement have received Government approval except in so far as they refer to baby chicks."

(11.) All chicks sold by the operator shall be sold under their proper official grade names as established by these regulations, and all advertisements for chicks shall show prominently such grade names.

(12.) The operator may, when selling or advertising chicks in conjunction with the grade name established by these regulations, use any subgrade name or brand name if such subgrade name or brand name or explanation accompanying such subgrade name or brand name is descriptive of established inherent characteristics of economic value to poultry production; in the event that the District Officer refuses approval of advertising material containing such subgrade name or brand names, the Minister may, at the request of the operator, refer the matter to the Board of Arbitration established by these regulations, and the Board shall inquire into the matter and submit to the Minister its recommendations.

(13.) When sexed chicks are advertised or offered for sale, the percentage of accuracy of the sexing shall be stated and guaranteed. Any chick sexer operating in an approved hatchery must take an examination under departmental supervision and satisfy the Minister that the sexer is proficient to the extent of the hatchery guarantee.

(14.) No owner or operator of an approved hatchery shall have any business connection with, or use his name or his firm's name in connection with, any hatchery operating otherwise than as an approved hatchery.

(15.) No owner or operator of an approved hatchery or two or more approved hatcheries shall, in advertising or selling chicks or in operating his hatchery or hatcheries, use more than one company, firm, or other name.

(16.) Every operator shall have equipment for weighing eggs and chicks that is of a type and form approved by the Inspector.

(17.) Every box containing chicks from an approved hatchery for shipment shall be labelled to show that the chicks are produced and graded under these regulations, and such label shall be in such form as may from time to time be prescribed by the Minister, and shall be placed upon the box in such manner that the label must be broken in order to open the box.

(18.) Day-old and started chicks in a shipment shall not be mixed; all boxes containing started chicks shall be labelled accordingly.

(19.) Approved chicks shall be sold only in new strong boxes made of seventy-pound weight paper or stronger and new pads.

(20.) Boxes shall be of type approved by the Minister, and constructed to afford proper ventilation at all times.

(21.) The hatchery shall be operated separate from any other pursuit or occupation of the operator if such other pursuit or occupation is of such a nature that it prevents or interferes with the proper operation of the hatchery.

(22.) All hatchery premises shall be provided with facilities to keep them free from flies.

(23.) Every hatchery shall be suitable for incubation purposes, and, at all times, shall be kept clean and tidy and free from dust, and shall be adequately ventilated and lighted.

(24.) Floors, walls, and ceilings of the hatchery shall be such as can be readily cleaned and disinfected.

(25.) Garments used by all persons engaged or employed in or about the hatchery to protect their clothing or persons shall be clean.

(26.) Incubators shall be clean and sanitary and in good working-order.

(27.) All trays shall be kept clean at all times, and, if necessary, shall be dipped in an approved disinfectant and scrubbed between settings.

(28.) After each hatch, the incubator floors shall be wet-swept and disinfected with an approved disinfectant, and all parts of the incubator that are likely to be contaminated shall be subjected to approved methods of cleaning and fumigation.

(29.) Adequate brooding facilities shall be provided, and shall be located in a position relative to incubating equipment that is satisfactory to the Inspector; if possible, such brooding equipment should be in a separate room.

(30.) The operator shall continuously supply to sexers clean working equipment and facilities for hand scrubbing, which shall be frequently used by the sexer.

(31.) Refuse from each hatch shall be promptly removed from the hatchery, and shall be disposed of by soaking in an approved disinfectant used in the required strength, by burning or other approved method; in no case should such refuse be disposed of where it is directly or indirectly accessible to birds.

(32.) Refuse-containers shall be thoroughly cleaned after the refuse from each hatch is removed; this may be accomplished by the use of water under pressure, a blow-torch, or by thoroughly scouring with an approved disinfectant.

(33.) In the event of an outbreak or suspected outbreak of any contagious or infectious disease, the hatchery operator shall immediately report such outbreak to the District Officer, and shall comply with all instructions issued by the Dominion Department of Agriculture for the purpose of controlling such outbreak.

(34.) At the completion of the hatching season, the entire premises and equipment shall be thoroughly cleaned and disinfected within thirty days in a manner satisfactory to the Inspector.

14. (1.) Graded chicks sold by an operator to another operator of an approved hatchery or an agent may be resold as graded chicks.

(2.) Every operator shall, before and during his hatching season, keep the District Officer informed as to the names and addresses of any persons acting as his agents or brokers.

(3.) A person selling chicks for himself or for the operator of an approved hatchery shall keep accurate records open and available at all times for inspection by the Inspector, and such records shall show in detail all sales and purchases of chicks.

15. Every person desiring to make a complaint with respect to chicks purchased or delivered by him shall make the complaint within fifteen days to the District Officer for the consideration of the Dominion Department of Agriculture.

CANADA ACCREDITED HATCHERIES.

16. An operator in possession of a permit to operate an approved hatchery may apply to the Minister for a certificate of accreditation to operate a Canada accredited hatchery.

17. The Minister may issue a certificate of accreditation to the operator of an approved hatchery if the Minister is satisfied that the hatchery will be operated in accordance with the requirements of these regulations respecting Canada accredited hatcheries.

18. Whenever, in the opinion of the Minister, the operator of a Canada accredited hatchery has contravened any of these regulations, the Minister may suspend or revoke his certificate.

19. Every certificate of accreditation to operate a Canada accredited hatchery, unless sooner suspended or revoked under these regulations, shall remain in force until the thirty-first day of August next after the date of issue.

20. Every operator of a Canada accredited hatchery shall operate his hatchery and conduct himself in accordance with the following rules:—

(1.) In buying eggs for incubation or accepting eggs for custom hatching, the operator shall accept hatching eggs only from Canada accredited flocks or flocks determined by the Minister to be of equal standing; such hatching-eggs shall be shipped direct from the flock or origin to the Canada accredited hatchery in which they are to be set.

(2.) An attendant or attendants of a Canada accredited hatchery shall have no contact with any other incubators, eggs, or chicks.

(3.) All egg-cases used for holding and transporting eggs from a Canada accredited hatchery shall be kept separate and used only for that purpose, and such shipments shall be identified with the name and address of the Canada accredited flock owner from whose flock they originated; it is recommended that egg-cases or other equipment used for holding or transporting these eggs be gassed frequently.

(4.) No sexing shall be conducted in a Canada accredited hatchery except by a resident sexer or by a sexer specially authorized by the Minister.

(5.) Chicks shall be shipped direct from a Canada accredited hatchery to another or direct to final purchaser without any resorting or repacking *en route*.

(6.) Chicks from a Canada accredited hatchery shall be shipped only in unused chick-boxes that have been assembled and stored in such hatchery.

(7.) Chicks from a Canada accredited hatchery being held for sale must be brooded by a Canada accredited hatchery, preferably in separate quarters, isolated from the rest of the hatchery, and shall be attended, if possible, by a person other than the one handling the hatching-eggs or day-old chicks.

PART III.

FLOCK APPROVAL POLICY.

21. Flocks may qualify as approved flocks and as sources of supply of eggs for incubation in an approved hatchery in accordance with the following rules:—

(1.) Only pure-bred stock of standard varieties, healthy, vigorous, free from standard disqualifications, may be included in an approved flock.

(2.) Before a flock may qualify as an approved flock, sanitary conditions of the buildings and premises shall be satisfactory to the Inspector.

(3.) Every bird in an approved flock shall be passed upon and banded by the Inspector.

(4.) No birds shall be banded unless they are sufficiently mature at time of inspection to ensure full and mature growth by December 1st preceding the hatching season.

(5.) All rejected birds shall have their tails clipped or be identified in some other satisfactory manner and shall, in a manner satisfactory to the Inspector, be removed from the premises or segregated without mating; if, upon subsequent inspection, it is found that such birds have not been removed or segregated as required, the flock shall cease to qualify as an approved flock.

(6.) Flocks entered under the R.O.P. policy qualify as approved flocks without further inspection or banding.

(7.) All domestic birds, with the exception of water-fowl, on poultry plants on which the entire flock or a portion thereof is submitted for approval shall, when sufficiently matured, be tested annually for pullorum disease in a manner, and with antigen or antigens, approved by the Minister; any approved flock entrant undertaking unofficial pullorum testing shall report the date and results of each test to the official testing agency in the Province concerned.

(8.) All reactors to any pullorum test shall be removed from the premises within seven days and sold only for slaughter.

(9.) The basis of approval of a flock in so far as pullorum testing is concerned shall be governed by the flock approval policy of the Province of British Columbia.

(10.) Approved flocks may be subject to such further inspection and to such tests for disease as may, from time to time, be considered advisable by the Minister.

(11.) Whenever it is found that an approved-flock owner has not complied with the rules set forth in this section, the approval of that flock may be cancelled, and he may be denied flock approval privileges for a period of two years.

22. For the purpose of this section, the expression "Inspector" means any Inspector appointed under the authority of any Dominion or Provincial law for the purposes of a flock approval policy.

CANADA ACCREDITED FLOCKS.

23. An approved flock may qualify as a Canada accredited flock in accordance with the following rules:—

(1.) A Canada accredited flock, to attain its initial status as such, must pass two consecutive official clean tests for pullorum disease at least six months, and not exceeding eighteen months, apart; the antigen or antigens used for such testing must be approved by the Minister.

(2.) A Canada accredited flock may also be established if found to be free from pullorum disease on one official test, providing the flock-owner submits evidence to show the flock originated as baby chicks hatched from Canada accredited hatching-eggs in a Canada accredited hatchery, and was subsequently maintained on premises on which no other poultry were kept or which, if previously used for this purpose, had been cleaned and disinfected.

(3.) When reactors are found in a flock, the status of that flock as a Canada accredited flock shall be cancelled, unless, in the opinion of the person conducting the test, the reactions were of a non-specific nature, in which case such status shall be suspended and the questionable birds shall be segregated if possible and retested after thirty days; if the questionable birds can not be segregated, the entire flock shall be retested after thirty days; if the retest does not reveal reactors, the suspension shall be lifted.

(4.) If a flock loses its status as a Canada accredited flock, in order to again qualify it must comply with all the requirements set forth in these regulations for a Canada accredited flock.

(5.) No hatching-eggs, chicks, or growing stock shall be taken into a Canada accredited flock except from another flock of the same standing or a Canada accredited hatchery.

(6.) Adult stock may be brought in from a Canada accredited flock, or from any other flock where the incidence of infection is less than one percentum, if such stock shows a clean test for pullorum disease on the premises of the seller, is kept in isolation for a period of forty-two days on the premises of the buyer, and is retested with negative results at the end of the period of isolation before being placed with the Canada accredited flock.

(7.) Birds removed for any purpose from the premises of a Canada accredited flock shall, on return to those premises, be isolated for sixty days and pass a negative test for pullorum disease before re-entering the flock.

(8.) In the event of an outbreak or suspected outbreak of any contagious or infectious disease, the flock-owner shall immediately report such outbreak to the District Officer of the Dominion Poultry Services in the Province; the owner shall comply with all instructions issued by the Dominion Department of Agriculture for the control of such outbreak.

(9.) A Canada accredited flock shall be subject to unannounced inspection throughout the season by an Inspector of either the Dominion or Provincial Poultry Services, as may be deemed advisable.

24. A certificate of accreditation may be issued in respect of an approved flock that qualifies as a Canada accredited flock under these regulations, but such certificate shall be valid only so long as that flock so qualifies.

PART IV.

GENERAL.

25. Every person who contravenes any provision of these regulations shall be guilty of an offence and liable, upon summary conviction, in the case of a first offence, to a fine of not less than twenty-five dollars (\$25), and in the case of a subsequent offence to a fine of not less than fifty dollars (\$50) or to imprisonment for a term of not less than one month and not exceeding three months, with or without hard labour, or to both fine and imprisonment.
